

## Bea Schubert: Picture "My Home And My Heart No.5" (2024)

€2,000.00

My Home And My Heart is inspired by a saying sprayed on a house wall - discovered on a trip through Spain. "My home and my heart are never closed: let the birds, friends, the sun and the air come in." (Marcos Ana) Home means confidence, trust, love and hope. Home is handwritten on the canvas. Birds represent freedom, but also the search for one's own personality. The expressive work of art is made on high-quality canvas. It is made with acrylic paint, pastel paint and spray paint and has many glazes/layers that immerse the picture in a mystical atmosphere. The bottom layer is a textured paste, which creates an atmospheric, heavenly expression through the many overpaintings.
