

Hasso Heybrock: Picture "Rubjerg Knude" (2023)

€1,550.00

The cliff of Rubjerg Knude borders the open North Sea and invites with its wide landscape and long strips of dunes especially in the summer months to spend a vacation. The special light that lies over the cliff on clear summer days highlights the play of colors between the blue sky and sea tones and the colors of the beach and dune landscape. In the vastness of this landscape and the constant flight of sand on the dune with the striking former lighthouse, the visitor gets lost and one is free and alone with oneself and this magnificent scenery. Here is space and opportunity for inspiration.
