

Ralf Schmidt: Picture "Banker's delight VI" (2011)

€640.00

The independent, uncontrollable spiral in the financial system and the parallel extreme behavior of some of those involved - an automatism in human nature. The work was inspired by the development of the financial crisis. Glazing, liquid acrylic paints, sometimes mixed with ink, were applied with a brush to handmade paper. The size of the handmade paper with the drawing is 33 x 44 cm, fixed on a thin cardboard measuring 40 x 50 cm.
