Ute Bivona: Picture "Light comes from within" (2023)

€4,500.00

Don't look for it here, there, somewhere. In the outside, in success at work, in money in your bank, or in the eyes of a loved one. It is IN YOU. Deep within us there is a light that gives us strength and shows us the way. The mind also clears by diving into the Inner Light, which is free from suffering and worry. Imagine a light within that shines continuously unaffected by external circumstances. The light guides you through the day and gives you warmth, serenity and the necessary overview. This light accompanies you in everything you do and shows you the way again and again. It is in your listening, your understanding, your love and your smile. It is in your heart and your soul. It is not for nothing that Antoine de Saint'Éxupéry's Little Prince says: "One sees well only with the heart."
