

Mila Weis: Picture "Light Experience No. 17" (2022)

€2,300.00

The "Light pulses" series celebrates the fascinating world of light as a phenomenon and at the same time as the energy of life. The dynamics of light reflections from the sea and its overwhelming blaze of colors serve as the starting point for their reinterpretation. In this project, I used abstraction as a means of subconscious, visual perception of the works. The compositions are characterized by three codes: the light, dynamic brush movement and striking colors to find energy and determine their rhythm. All works are ready to hang, hand-signed, dated and carefully shipped with a certificate of authenticity with many protective measures to ensure they arrive in perfect condition.
