

Fehrmann: Picture "Water Lilies, No. 1, Water Lilies" (2020)

€4,750.00

Peace and harmony is in the air. Water lilies are reflected in the lake and reflect the summer. The warmth and the summery shimmering of the air were implemented in the interplay of different painting techniques, such as acrylic painting and charcoal and chalk drawing. Countless layers of paint and overlays ensure that this work of art seems to live in the light and the viewer never tires of discovering new details.
