

Milena Radic: Picture "Narcis" (2021)

€3,100.00

This oil painting shows a geisha in a moment of rest after bathing, surrounded by a garden full of daffodils and wisteria. Her porcelain white skin against the vibrant floral background and the blue silk kimono draped elegantly around her legs lend the scene an intimate grace. The bath tub in the background suggests solitude and inner peace. The rich texture of the oil paints enlivens the scene, emphasizing the softness of the kimono and skin and evoking a sense of tender affection. This artwork is an ode to the quiet beauty of the moment and invites reflection on the connection between nature, culture and inner peace.
