

Gary Westall: Picture "Edwards Landscape II" (2016)

€690.00

The inspiration for this painting was provided by Edward Seago with the painting "Landscape near Upton-Norfolk". The artist Edward Seago is one of my favorite artists and role models. I find the way he captured the English countryside in his paintings very inspiring and beautiful. He was also very popular with the Queen Mum, Prince Philip and King Charles. Prince Philip and King Charles took lessons from him. Signed Bottom Left, oil on linen laminated on MDF 6mm.
