

Michael Krähmer: Picture "Clouds and sea IV" (2008)

€2,800.00

The picture is painted using the time-consuming resin oil glazing technique of the old masters. Transparent oil paint mixed with dissolved resin is glazed with a brush in many wafer-thin layers, creating shimmering, almost three-dimensional color spaces. The creation of such a painting takes up to a month. A delicate evening mood by the sea with pastel-colored light clouds gently drifting over the water. A picture of peace and tranquillity, for dreaming and letting your mind wander...
