

Astrid Stoeppel: Sculpture "Colorful Mini Dots! Diptych" (2024)

€650.00

In this body of work, I have explored the joy and energy that can be found in simple shapes and vibrant colors. Through the use of acrylic and small objects, I create a texture that invites both looking and feeling. The geometric arrangements and pop of color reinforce a sense of both order and chaos. This painting brings a playful and invigorating atmosphere to any room. The wall sculpture (2 stretcher frames, 20x20cm each, can be freely combined) consists of small plastic balls that are firmly mounted on the canvas. The work is treated with fixative to protect it from dust and UV rays. The mini artwork is signed and dated on the back.
