

Frederic Paul: Picture "When it Blooms III" (2024)

€1,700.00

The artwork "When it Blooms III" shines in vibrant red tones and shows the beauty of flowers in full bloom. These flowers represent the moment when life is at its most intense. But at the same time, the picture reminds us that this blossom is fleeting. Everything beautiful is only there for a short time, but the memory of it remains constant. This work shows that change has its own form of permanence. -Work of art: 50x70 cm -Work of art with object frame: 70x100 cm -The work can be hung immediately -The artwork is on canvas, framed with a passe-partout in a timeless black wooden object frame behind glass -Two layers of transparent UV varnish protect the artwork
