

Milena Radic: Picture "Joy" (2023)

In this artwork, I have captured the essence of happiness and perseverance. Through the use of powerful, expressive brushstrokes, I have depicted the radiance and vibrant energy emanating from the subject's smile, along with the vibrant headscarf that represents her cultural heritage. This creation is a hymn to life, radiating optimism and strength, destined to add a wave of motivation and distinctive character to any space.
