

José Bifano: Picture "Structure 2.2" (2023)

€800.00

The painting "Estructura 2.2" is composed of a high-contrast grid in black and white with metallic textures and symmetrical patterns. Although delicate, the structure appears solid. The precision and exactness of the patterns and textures are evident in every stroke and detail of the artwork. The symmetrical patterns that make up the structure create a sense of balance and harmony. The high-contrast grid adds depth to the image and highlights the details. The contrast, precision, and exactness of the painting give it a technical and mechanical feel that may evoke the idea of a scientific or technological structure. This artwork was created using my own technique, which uses toilet paper as a support. In its creation, I used acrylic paints, glue, toilet paper, and water.
