

Sabrina Seck: Picture "It's Frida" (2023)

€3,200.00

This lady has gone down in history with her adventurous life. She shaped not only art, but also the strength and self-confidence of a woman. Gone from us much too early, she leaves behind not only wonderful works, but also a strong and at the same time sad story. Painted with acrylic on a wooden canvas. This consists of 100% wood and is built like a canvas mounted on a stretcher. Framing is not necessary. The work can be hung immediately.
