

Peter Nottrott: Picture "Thunder And Lightning XXL 1" (2023)

Abstract, intense painting in portrait format inspired by the lightning and thunder of an imposing thunderstorm. Black and white, yellow, red and pink hues seem to meet very dynamic or explosive. The center is dominated by yellow and orange hues and is rich in detail and contrast, while the background is more flat and predisposed to softer color transitions. I have painted several variations of Thunder And Lightning, which for years has been a motif, which in shapes and colors is always reinvented and demonstrated by nature. The painting has painted side edges and is signed on the front bottom right of Peter Nottrott and dated with the year of creation.
