

KNÖ-REI: Picture "669-GK" (2023)

€1,600.00

We immerse ourselves in a geometric landscape, in a mosaic of squares and triangles. I use minimalist shapes to create an abstract, colorful universe that nevertheless always remains elegant. The coordinated colorful areas create a positive mood in every season, it associates spring or summer as well as bright days of autumn or a bright sunrise in winter. The colors have been carefully selected to radiate joy and visual harmony. This painting is a tribute to the clarity and power of simple shapes and bold colors.
