

Sabrina Seck: Picture "Hydra X" (2025)

€7,900.00

Deep emotions and multi-layered personalities that ultimately make up one person. The bright streams of color and the intensity of the facial expressions reflect the many facets of human experience and feelings. Every characteristic, every facet, every gloomy or cheerful part of a person is depicted as another face. Some are still developing, others are relegated to the background. Some people have many faces, some only a few. What is important is what they do to us. This painting brings a powerful energy into any room and creates an atmosphere that is both thought-provoking and stimulates the senses.
