

Fehrmann: Picture "Blue hour" (2023)

€2,850.00

The vivid painting takes the viewer to the time period within the evening or morning twilight. Everyday life is meaningless, space and time are suspended. This mood was the inspiration for the multicolored composition, in which blue, yellow, white, magenta and black play together in harmony. The different materials acrylic and charcoal enhance the positive tension that emanates from this work of art.
