

Anja Struck: Picture "in shallow water" (2023)

€2,100.00

I am always fascinated by herons. As soon as I see one of these birds, I stop and watch you. They look noble and elegant with their upright gait, delicate long neck and long pointed beak. Through a deliberate blurring the contours in the picture, the heron becomes one with its surroundings, wind and movement can be felt. The picture is signed on the back. The side edges have a warm yellow tone.
