

## Milena Radic: Picture "Hidden gaze" (2024)

€500.00

This charcoal and pastel drawing captures the quiet allure of a nude woman in a semi-sitting pose as she turns her back to the viewer and looks over her shoulder with her head gently tilted. The harmonious interplay of light and shadow emphasizes the graceful curve of her back and lends the scene a mysterious depth. The warm pastel tones soften the powerful strokes of the charcoal and create a balance between gentleness and expressiveness. This composition reveals a subtle elegance that conveys both vulnerability and inner strength - a silent homage to the natural beauty and timeless grace of the female figure.
