

KNÖ-REI: Picture "677" (2024)

This artwork is part of the 'Experiments on the Circle'. This series of only 4 works by the German artist is also characterized by the clarity of its geometry. The main artistic element of KNÖ-REI is the square. Each of the round formats therefore always contains a square. Each of the works impresses with its charisma and conveys a great geometric poetry. Characterized by contrasts, this work with its elegant colour concept conveys a positive atmosphere and invites its viewers to give free rein to their own intuition. The work is ready to hang and signed on the back. Works by KNÖ-REI are represented in private collections worldwide, including in Germany, France, Spain, Great Britain, Japan and the USA.
