

Oleg Breininger: Picture "Wayside" (2014)

€1,000.00

Natural spaces characterized by use are the subject of my constant observations. The interventions resulting from use and their traces in the natural spaces are understood as natural components of nature. The boundary between the intervention and the natural state is dissolved. By visualizing the time-related influences of certain processes, I draw attention to the fact that capacities have a limited endurance and reflect nature's capacity for suffering.
