

Michael Rofka: Picture "Loop" (2017)

€5,000.00

The picture shows a dynamic powerful swinging structure. It was not the artist to represent something concrete but he invites you to experience the pictorial dynamics. As a work of a concrete painting, the artist started only from the means of painting, color and form. But unlike a strict geometric painting, an imaginative design plays an essential role in his work. The picture is powerful and light at the same time.
