

Heinz Stoewer: Picture "Solid" (2004)

€1,900.00

The abstract painting in shades of gray and light green is dominated by a black stripe that protrudes into the work from above. The incorporated grains of sand create interesting structures and small shadows in the subtle grey-green color areas. The "heaviness" of the black bar contrasts with the lightness of the rest of the painting. The work was inspired by the shapes and colors of nature. The work is dated and signed by the artist on the back.
