

Anja Struck: Picture "mußestunde" (2023)

The "mußestunde" radiates a special atmosphere of calm. The light, warm tones give the picture lightness. The motif of the person reading is slightly blurred, the contours dissolve. The space in the background is blurred. The deliberate blurring reinforces the mood surrounding the reader: Contentment and a concentrated immersion in his reading or in his associated thoughts. The picture is signed on the back.
