

Hasso Heybrock: Picture "beyond" (2023)

€4,990.00

The title of the painting is deliberately chosen open to leave the viewer any space for his viewing, feeling and thinking. To make the unthinkable and non-sensible experienceable similar to dreams, is the inspiration for this painting. Whenever the viewer likes, he can look around and drift in the depth of the painterly representation. As he likes, he may absorb the dynamics of the painterly structures and release them again in the quieter scenes, depending on his mood and always anew. "beyond" is a multi-layered painting in large format, which welcomes us with its dark tones friendly and comfortably calms. The painting is painted with acrylic paints on Belgian canvas and has a fine wooden presentation frame. It can be hung immediately. With its unexciting mood, the work will fit into any home or office. The large format is equally suitable for representative purposes.
