

su sea: Picture "Mc Queen I" (2023)

€3,200.00

The portrait of Mc Queen was awarded the HONOURABLE MENTION AWARD, an International Art Award by Art Show International Gallery, USA, California, Los Angeles. Steve Mc Queen, one of the most renowned film actors in the United States and a passionate motorsports fan, is still considered an iconic figure in popular culture many years after his death. His eventful life and exciting career inspired me to create this portrait. The colorful mixed media work consists of acrylic paint, tissue paper, graphite and a line of script with a quote from Mc Queen. The image has texture through the impasto application of paint and tissue paper.
