

Heinz Stoewer: Picture "Del Marcos hotel" (2010)

€1,200.00

The picture shows the front view of the Del Marcos Hotel in Palm Springs, California, an icon of midcentury modern architecture of the 1950s. It is part of my series about Palm Springs and life in the desert there. The surrounding landscape flows in through the reflection in the glazed door and window and refers to the fragility and transience of a place in the middle of a desert. The strong colors result from the typical clear light of the desert.
