

Mirek Gasz: Picture "PRAVDA - truth?" (2023)

€2,900.00

Order and disorder, chaos. Life has its own perspective for everyone. It is always in motion. Color mixes like the building blocks of life. That is why chance is an important companion in my work. Chance and order are important features of my painting. The figures are painted in great detail and stand out particularly strongly against the chaotic background. Colors and shapes clash in contrast. If you look closely, there are three levels: water, earth and air. "PRAVDA - truth?" a part of the painting questions and gives impetus.
