

Ilona Schmidt: Sculpture "The Leader" (2021)

€1,250.00

Head made of stoneware mass processed with cold colors and patina. Dimensions incl. wooden stand Creation process of my sculptures from clay / stoneware mass I work the clay by following the property of the material. I consciously leave cracks, or tear it in the leatherhard Zustand again. The earthy structures of the clay I let visibly flow into my work. In the process, I always notice how the clay works in itself and what structures it brings forth, especially when using great heat. It is important to me that the work process remains visible.
