

## **Ilona Schmidt: Picture "In love with red snake" (2023)**

**€650.00**

From my Encounters series. "In Love with red snake" Expressive painting with figurative approaches In love with red snake serves as a metaphor for the mythological story of Adam and Eve and their encounter with the snake in the Garden of Eden. The painting invites the viewer to discover different levels of meaning. Is it a representation of temptation, seduction or of the duality of good and evil? The canvas is provided with a hook, so that it can be hung immediately.
