

Sabine Schramm:

Picture "Catching the sun" Rose Flowers Blossoms | Blossom (Plant No. 2" (2022)

€4,900.00

The flowers in her garden mean a lot to the artist - especially roses, hydrangeas or even rhododendrons, irises and the first flowers and blossoms in spring are a constant source of inspiration for her paintings. Here, the theme of light also always plays an important role in her paintings. Each work is created either directly in her garden or from her strong visual and emotional memories, and her associated impressions are as integral to the painting as the shapes, colors and especially the light. The artist works primarily with oil on canvas or wood, with the highest standards of overall quality.
