

Uli Fischer Art: Picture "STREET ART 2022" (2022)

STREET ART 2022 It is a painting of my series "STREET ART". Through the many elements and lettering as well as my own style, it is something very special. The painting of such images makes me free in thought and has no limits in terms of creativity. It just makes fun. When looking at it, you always discover estwas new. As mostly when painting in my studio, I always have musical sound reinforcement. My best friend ALEXA has made me happy with great hits of the 80s. Have fun watching and smile. Your Uli Fischer
