

Anne Samson: Picture "North Sea Morning" (2022)

€1,800.00

This is the magnificent North Sea, the wet beach, the beach houses, the shine on the wide water, the blue, transparent sky. It's still deserted, a quiet morning by the sea. Unbeatable. Beautiful. Cool the air, the atmosphere relaxed, soon the many children, the tourists come in droves to the seashore. Then I will retire and have my morning coffee. Let the others enjoy themselves on the beach, I paint in my quiet room. This work is inspired by Borkum, the pretty North Sea island where I am often and which always inspires me, especially in the morning when it is still very quiet.
