

Anne Samson: Picture "Rose carpet" (2023)

€1,500.00

This picture has an exquisite colorfulness and the flowers seem to float towards the viewer. Petrol blue in the background combined with beige and restrained green makes the flowers particularly radiant. The surface of the picture is slightly rough, because the artist Anne Samson has brought a little sand with in the primer, on which the colors, the motif were then painted. This looks quite beautiful.
