

Karin Döring: Picture "IN THE LAGUNE" (2024)

€3,200.00

I painted the artwork entitled IN THE LAGUNE entirely with dots in different sizes and colors. The background is dominated by blue and green tones that capture the mood of a day in the lagoon. The woman with sunglasses shows a dear friend who accompanied me to this lagoon in Sicily in 2022. The artwork conveys a feeling of summer, sun, days by the sea and endless freedom. The dot technique creates a fascinating effect. The contrast between the warm skin tones of the woman and the cool blue and green tones of the sea brings the scene to life. Light and shadow effects are created by varying dot sizes and colors, complemented by some dots that I have gold-plated with silver leaf. The artwork invites the viewer to imagine themselves in the mood of a day by the sea, in a lonely lagoon with shimmering water, to feel the sun on their skin and to feel the lightness in their hearts.
