

Anne Samson: Picture "Abstraction in red" (2023)

€1,200.00

I love red. Or better Rooooooooot, as intense as possible and beyond in all shades. Here, the color plays a special role, because it dominates the composition. Strongly abstracted, however, it is ultimately a flower picture, a floral composition. One that radiates. Red, pink, magenta, orange and in stark contrast to beautiful shades of green were used in a kind of impressionistic technique. A wonderful work!
