

su sea: Picture "Amy I - (time to be) different" (2024)

€3,500.00

Amy Winehouse - the exceptional talent with her charismatic voice and her career that lasted far too short a time, must not be missing from my series of "extraordinary women". She became a global star overnight, selling millions of records in the 8 years of her music career and winning 6 Grammy Awards. On the one hand there was her great talent, on the other hand drugs, alcohol and psychological problems, which she was already confronted with at a young age. The portrait "Amy I - (time to be) different" tells of this contrast and this inner conflict. I used acrylic paints, paper, plastic masses and graphite for this work, which gives the picture a partial surface structure.
