

## Corinna Rosteck: Picture "Offramp" (2024)

€3,300.00

The photographic series 'Halensee' reflects nature in its organic movements. In the simultaneously airy and dense rhythm of the color, the landscape in the motif 'Offramp' begins to pulsate, in the color space of the camouflage it swirls up - or does it sink? The boundaries between sky and crystal-clear water on which drifts what winter has left of nature dissolve.
