

Uli Fischer Art: Picture "FERRARI VOL.II" (2022)

Here is a newly created image of the Ferrari which I have already painted once in 2018. It is a commissioned work and it has made me again a lot of fun to paint this fancy vehicle. Of course, I have it compared to the first picture slightly abgeandelt. I hope the customer has a lot of fun with it. Of course, if interested, I'm happy to do another commissioned work to an interested customer. Many greetings Uli Fischer
