Bea Schubert:
Picture "Kiss Of Life No.1" (2025)

€800.00

My painting, inspired by Sade's soulful song "Kiss of Life", captures the tender essence of love and connection. The symbols of two butterflies and kissing fish take center stage, coming to life in warm, inviting colors. The butterflies, delicate and graceful, embody transformation and the beauty of fleeting moments. The kissing fish represent harmony and the intimate dance of life. Through this work I wish to evoke a sense of warmth, love and the magic of life's delicate interactions. The painting is painted on high-quality canvas and veneered to protect it from UV radiation.
