

Sabine Schramm: Picture "Haribo gummy bears" (2022)

€4,900.00

In my childhood, gummy bears were magical little creatures that captured my heart. The bright colors and sweet taste immersed me in a world of adventure and carefree joy, full of secrets and possibilities. Hours flew by as I played with friends and we guarded our little gummy bears like treasures, sharing them with each other and snacking on one every now and then. Today - years later - I feel that warm sense of nostalgia and a touch of magic that reminds me that despite its challenges, life can also be full of joy and light-heartedness. The gummy bears may have changed, but their magic remains unchanged - a symbol of precious memories and the wonderful times of our childhood and a secret key to a bygone world where dreams could come true and childhood was full of joy and innocence.
