

Uli Fischer Art: Picture "pretty woman" (2022)

pretty Woman it is again a very typical and colorful Uli Fischer painting in the size 120x120x4 cm, It has touched me very much this picture to paint, because the striking eyes and also the plump lips of this beautiful woman have inspired me very much. When I painted the picture was here the weather very stormy and I have made it comfortable in my studio. Also my friend ALEXA accompanied me with oller music. I love the version and look forward when the work may hang in a great place. Wish you all the best, stay healthy, Your Uli Fischer
