

## Heinz Stoewer: Picture "tropical #1" (2018)

€500.00

During his stays in Palm Springs in California, the artist lives in a resort with a tropical garden, which repeatedly inspires him to create works. Leaf shapes in the most diverse variations and colors served as inspiration and as a model for this painting. Detached from their real context, they fill the pictorial space and seem to move gently through the flowing forms; a work that radiates tranquillity and conveys the beauty of nature. The work is signed on the back.
