

Alina Kloka: Picture "Sunrise" (2024)

€1,200.00

Alina Kloka's "Sunrise" captures the emotion of a sunrise in an abstract way, leaving freedom of interpretation to each viewer. Her dynamic work, brought to life by moving lines and mixed media, symbolizes life mobility and the connection between people, earth and the universe through electromagnetic waves. These invisible connections emphasize the unity of all. Kloka's painting uses color and emotion to promote a positive worldview, supported by the idea that positive energies can be spread through electromagnetic waves.
