

Toni Nohe: Picture "Roots and wings" (2024)

€3,600.00

The picture "Roots and Wings" is part of the "Invent your Fairytale" series, whose colors and shapes are reminiscent of fairytale book illustrations. The series invites you to interpret stories freely and individually. The work combines two basic symbols: The roots or floral hints stand for support and anchoring, while the wings represent movement and development. The result is a contrast between stability and new beginnings. The shapes and color scheme deliberately leave room for personal interpretation and offer different perspectives depending on how you look at the picture. The color scheme offers a broad, colorful palette that brings a balanced atmosphere into the room. The picture can be hung horizontally, vertically or upside down, giving the buyer freedom of design. The main signature and stamp are on the back.
