

## Karin Döring: Picture "SOFT SKILLS" (2024)

In my artwork, I captured a deep emotional connection through the depiction of two people in an intimate embrace. The use of acrylic allowed me to emphasize subtle details and the softness of their touch. The contrasting, wavy background intensifies the dynamic between the figures and symbolizes the moving energies of their emotions. This painting invites you to feel the power of human closeness and connection and brings a calming yet energetic mood to any home.
