

Ella Joosten: Picture "Foliage Ten" (2022)

€1,990.00

First quality, highly pigmented acrylic paints, on 4 cm deep canvas. Abstract. Expressionism. Impressionism. The painting is ready to hang. You know them, those leaves as you often see them in ditches and ponds in autumn and winter. They are dying along with branches. I saw the effect of light, the reflection, the refraction of the light, the vibration in the water and the reflection of the trees in the water. I found that very intriguing, I had to do something with it. I always look for abstraction in my subjects. so you can see this painting both impressionism and abstract.
