

Sabine Schramm:
Picture "Cupcake cake "Sweet Temptation" (work no. 211001)" (2021)

€3,900.00

The walk along the lake leads directly past the café, which offers tartlets garnished with delicious, ripe fruit, especially in summer. Even the artist can hardly resist - "Sweet temptation" shows a selection of these lovingly baked delicacies in oversize. Perhaps your mouth is watering at the sight of them and your soul is doing somersaults? The work is painted in realistic painting style with high quality oil paints. The high pigmentation and the image composition done in several layers give the image an extraordinary luminosity and depth.
