

Sabrina Seck: Picture "Janine" (2025)

€3,200.00

Janine has a strong personality and is bursting with self-confidence. I highlight her expressiveness with pop-like splashes of color to capture the intense emotions and inner strength that arise from the deepest reflections. The bold, vibrant colors against the dark background symbolize the light and dark sides of our personality. Janine also has different facets, both light and dark. But only she herself knows which ones predominate.
